Score 1 of 1

What are the parking rules for a blue colored curb?

Park for a limited time only

Parking for a disabled person or a driver of a disabled person

Parking for a disabled person only

Question:

Score 1 of 1

What are the parking rules for a green colored curb?

Stop only to pick up or drop off passengers

Stop only to unload freight

Park for a limited time only

Question:

Score 1 of 1

What are the parking rules for a red colored curb?

No stopping, standing, or parking for any vehicle except for a bus where red zone is marked for buses

No stopping, standing or parking

Stop only to pick up or drop off passengers

Question:

Score 1 of 1

When is it allowed to park on the left side of the roadway?

On a two-way street

On a freeway

On a one-way street

Question:

Score 1 of 1

When you have to use emergency parking area on a highway

always keep your 4-way flashers or parking lights on

keep your 4-way flashers or parking lights on if the visibility is poor

keep your 4-way flashers or parking lights between dusk and dawn

Question:

Score 1 of 1

What is correct about vehicle's blind spots?

the size of the blind spots does not depend on the size of the vehicle

the larger the vehicle the smaller the blind spots

the larger the vehicle the larger the blind spots

Question:

Score 1 of 1

What can affect your perception distance?

road and weather conditions

other road users

your mental and physical conditions, medications, and visibility

Question:

Score 0 of 1

Which type of steering should you use when operating vehicle controls?

One-hand steering

Hand-over-hand steering

Pull-push steering

Question:

Score 1 of 1

Before changing a lane you should

Check your mirrors and look over your shoulder, and check your blind spot.

Signal, check your mirrors, look over your shoulder, and check your blind spot.

Check your mirrors, check your blind spot and signal.

Question:

Score 0 of 1

You experience troubles with your vehicle and need to stop. Where should you stop?

Stop just over a hill.

Stop where people can see your vehicle from front.

Stop where people can see your vehicle from behind.

Question:

Score 1 of 1

Which of the following is correct?

Vehicles appear to move as fast as they really are moving.

Vehicles appear to move faster than they are moving.

Vehicles appear to move slower than they really are moving.

Question:

Score 1 of 1

When passing, you should

come as close to the vehicle as possible, so that passing would be easier

keep a safe distance behind the vehicle you intend to pass

Question:

Score 0 of 1

What is the minimum safe following distance when driving with 50 mph on wet road?

5 car lengths

20 car lengths

10 car lengths

Question:

Score 1 of 1

When passing a motorcyclist,

you can pass the motorcyclist in the same lane

you should leave the motorcyclist as much space as you would leave to a car

you may leave the motorcyclist twice less space

Question:

Score 1 of 1

When is it easier to pass a truck?

On an upgrade

On a downgrade

On a level highway

Question:

Score 1 of 1

What is correct about estimating the speed of a motorcycle?

it is easier than estimating the speed of a car

it is the same as estimating the speed of a car

it is more difficult than estimating the speed of a car

Question:

Score 1 of 1

Is it allowed to overtake and pass a light rail vehicle from the left side?

Yes, if it is standing.

Yes, if it is moving.

No, unless you are on a one-way street or the tracks are too close to the right side of the road.

Question:

Score 1 of 1

You need to exit a roadway, but you see a large truck on your right. You

honk your horn at the truck driver to make him aware of your presence.

speed up to pass a truck and then exit the roadway.

slow down and exit behind a truck.

Question:

Score 1 of 1

A diamond-shaped sign on a truck means that

the load on the truck is potentially dangerous

the truck carries animals

the truck is slow moving

Question:

Score 1 of 1

You are traveling on a two-way street when a school bus stops in front of you to drop off children. You

stop and remain stopped until the stop arm is withdrawn

pass the bus if there is no oncoming traffic

slow down and pass the bus with caution, if there is no oncoming traffic

Question:

Score 0 of 1

What to do if you are driving in darkness and oncoming driver does not dim his or her high beam headlights?

Turn your high beam headlights on.

Look straight ahead and avoid looking at the oncoming car.

Look toward the right edge of your lane.

Question:

Score 0 of 1

When driving down a steep hill you can slow your vehicle easier if you

shift to a lower gear

shift to a higher gear

coast in neutral gear

Question:

Score 1 of 1

Pre-cautions for driving in high winds include:

Reduce your speed.

Hold steering wheel firmly, but it is ok to proceed with normal speed.

Use cruise control.

Question:

Score 1 of 1

You are driving in darkness and it rains. Which lights should you use?

Parking lights.

High beam lights.

Low beam headlights.

Question:

Score 1 of 1

When are the roads most slippery?

In the beginning of the rain, especially after dry spells.

When it has been raining for several days in a row.

Right after heavy rain.

Question:

Score 1 of 1

If a victim of a crash has a serious bleeding,

wait until the ambulance comes

stop the bleeding with a thick cloth pad, as clean as possible

do not touch the wound because it can get infected

Question:

Score 1 of 1

If you start to skid, you should

Ease off the gas pedal, stop braking and turn the steering wheel in the direction of the skid

Press more gas pedal and brake gently

Press more gas pedal and brake gently.

Keep the steering wheel straight

Question:

Score 1 of 1

If your accelerator becomes stuck, you should

shift to neutral.

shift to higher gear.

shift to lower gear.

Question:

Score 1 of 1

Which of the following is true?

hitting an oncoming vehicle is better than to have a rear end collision

it is better to skid off the road than to drive off the road

hitting a vehicle driving in the same direction as you is better than to have a head-on collision

Question:

Score 1 of 1

When driving on a slippery surface

Shift to a low gear before going down steep hills and pump antilock brakes.

Shift to a low gear before going down steep hills

Shift to a high gear before going down steep hills

Question:

Score 1 of 1

If a person is age 21 or older, Blood Alcohol Concentration (BAC) limit is

0.1% or higher

0.08% or higher

0.04% or higher.

Question:

Score 1 of 1

Alcohol affects your

reaction, concentration and vision, but not judgement

judgement, concentration and reaction, but not vision

judgement, vision, concentration and reaction

Question:

Score 1 of 1

You have taken medication which did not have any listed side-effects, but you feel dizzy after it. You

may drive because dizziness does not affect your driving ability

should not drive until you feel well again.

may drive if it's a short trip

Question:

Score 1 of 1

Alcohol can affect your attitude to risk

- only if your blood alcohol concentration level is 0.1% or higher
- only if your blood alcohol concentration level is over 0.08%
- even if your blood alcohol concentration level is less than 0.08%

Question:

Score 0 of 1

If you and your friend have taken the same amount of alcohol, your driving skills

- are affected in the same way
- will be affected depending solely on your weight and gender
- can be affected differently
